

US announces \$2 trillion Corona rescue package for economy

Aid to small businesses to pay jobless workers, \$500 bn loan to big units

Washington, Mar. 25
The White House and Senate leaders of both parties have struck an agreement on a sweeping USD 2 trillion measure to aid workers, businesses and a health care system strained by the rapidly spreading coronavirus outbreak.

The agreement came on late Tuesday after days of often intense haggling and mounting pressure and still needed to be finalised in detailed legislative language.

Top White House aide Eric Ueland announced the agreement in a Capitol

hallway shortly after midnight. "Ladies and gentlemen, we are done. We have a deal," Ueland said.

The unprecedented economic rescue package would give direct payments to most Americans, expand unemployment benefits and provide a USD 367 billion program for small businesses to keep making payroll while workers are forced to stay home.

The final details had proved nettlesome. One of the last issues to close concerned USD 500 billion for guaranteed, subsidized loans to larger industries,

including a fight over how generous to be with the airlines. Hospitals would get significant help as well.

The package was aimed to combat what Senate Majority Leader Mitch McConnell had called "the most serious threat to Americans' health in over a century and quite likely the greatest risk to America's jobs and prosperity that we've seen since the Great Depression." Yet even as the public-health crisis deepened, President Donald Trump expressed eagerness to nudge many

people back to work in coming weeks and held out a prospect, based more on hope than science, that the country could be returning to normal in less than a month.

"We have to go back to work, much sooner than people thought, Trump told a Fox News town hall. He said he'd like to have the country opened up and just raring to go by Easter, April 12.

But in a White House briefing later, Trump said "our decision will be based on hard facts and data. Medical professionals say social distancing

needs to be stepped up, not relaxed, to slow the spread of infections.

At the White House briefing, the public-health authorities said it was particularly important for people in the hard-hit New York City metropolitan area to quarantine themselves for 14 days, and for those who have recently left the city to do the same.

Dr Anthony Fauci, the government's top infectious disease expert, said pointedly at the briefing, "No one is going to want to tone down anything when you see what is going on in a place like New York City.

Treasury Secretary Steven Mnuchin and congressional leaders engaged in final negotiations Tuesday after a tumultuous but productive day Monday. While the two sides had resolved many issues in the sweeping package, some sticking points remained.

We're trying to finalize

all the documents, going through a lot of complicated issues, and we're making a lot of progress, Mnuchin said earlier Tuesday.

Ravaged in recent days, stocks rocketed as negotiators signaled a resolution was in sight.

At issue in the Capitol was an unprecedented economic rescue package. A one-time payment of USD 1,200 per adult and USD 500 per child would go directly to the public. A huge cash infusion for hospitals expecting a flood of COVID-19 patients grew during the talks at the insistence of Sen. Chuck Schumer, the Democratic leader, while Republicans pressed for tens of billions of dollars for additional relief to be delivered through the Federal Emergency Management Agency, the lead federal disaster agency.

Democrats said the package would help replace the salary of furloughed workers for four months,

rather than the three months first proposed. Furloughed workers would get whatever amount a state usually provides for unemployment, plus a USD 600 per week add-on, with gig workers like Uber drivers covered for the first time. Companies would be able to defer payment of the 6.2% Social Security payroll tax.

Opening the Senate on Tuesday, McConnell combined optimism about the chances for a deal with frustration at the delays and a sober view of the crisis at hand.

The urgency and the gravity of this moment cannot be lost on anyone, he said. On the negotiations, he said, it's taken a lot of noise and a lot of rhetoric to get us here.

Still, "we are very close. We are close to a bill that takes our bold Republican framework, integrates further ideas from both parties, and delivers huge progress.

Earlier Tuesday, Trump urged swift action. Congress must approve the deal, without all of the nonsense, today," he tweeted. The longer it takes, the harder it will be to start up our economy. Democrats pointed to gains for hospitals, additional oversight of the huge industry stabilization fund, and money for cash-strapped states.

A companion appropriations package ballooned as well, growing from a \$46 billion White House proposal to more than USD 300 billion, which dwarfs earlier disasters including Hurricane Katrina and Superstorm Sandy combined.

To provide transparency, the package is expected to create a new inspector general and oversight board for the corporate dollars, much as was done during the 2008 Troubled Asset Relief Program bank rescue, officials said.

TN records first Corona death in Madurai, Cases 19

Chennai, Mar.25:
Tamil Nadu reported its first Covid-19 death at the Rajaji Government Hospital in Madurai this morning. The 54-year-old man from Madurai had no history of travel to any coronavirus-affected state or country.

However, he did have contact with two Thai nationals who had tested positive for Covid-19 and are undergoing treatment in isolation in Erode.

"Despite our best efforts, Rajaji Hospital authorities he passed away.

He had medical history of prolonged illness with steroid-dependent COPD, uncontrolled Diabetes with Hypertension," Health Minister C. Vijayabaskar tweeted. Tamil Nadu on Monday reported three more positive cases of coronavirus, taking the total to 12, Health Minister C Vijaya Baskar said.

The patient tested positive for the coronavirus on March 23. Yesterday the minister had disclosed that the patient had not responded well

to treatment due to his medical condition. "He has a medical history of prolonged illness with steroid dependent COPD, uncontrolled diabetes with hypertension," he said.

As of Wednesday morning, the total number of Covid-19 infected patients in Tamil Nadu was 18, including one patient who has recovered.

The latest patients include a 65-year-old man who returned from New Zealand and is currently in isolation at a private hospital, a 55-year-old

woman from Saidapet who is currently in quarantine Kilpauk Medical College Hospital, and a 25-year-old who returned from London and is undergoing treatment at the Rajiv Gandhi Government General Hospital.

The latest cases include two, both men, with travel history to London, while the other is a 54-year-old man, he tweeted. They have been admitted to the designated hospitals in the city and in Madurai.

CM announces facelift for temples, pay hike for staff, new TV for shrines

Chennai, Mar 25:
Chief Minister Edappadi K Palaniswami announced Rs. 10 crore for the renovation of 1000 village temples, a hike in the pension of village temple priests to Rs 3,000 from Rs 1,000 and said a television channel dedicated to shrines will be launched.

Announcing new initiatives under rule 110 for the Hindu Religious and Charitable Endowments Department (HR and CE), he informed the Assembly that the

pension will be hiked. "The pension of retired village temple priests will be increased to Rs 3,000 from Rs 1,000," he said.

The beneficiaries are those who have completed 20 years of service and completed 60 years of age and served at temples not under the ambit of HR and CE. He said that the additional expenditure of Rs 4.64 crore for the move will be met from government funds.

Palaniswami said renovation work will be carried out in 55 ancient

temples at a cost of Rs 50 crore from government and temple fund. "A television (channel) will be launched in the name of Thirukkoil at an estimated cost of Rs 8.77 crore," he said.

He said that development work, including desilting will also be done in 100 tanks owned by temples at a cost of Rs 26.20 crore. "At a cost of about Rs four crore, free weddings will be held for 10,000 poor couples at 50 temples," the chief minister said.

Infrastructure will be created at Manallur, Cheyyaru, Manapparai, Theni, Mankudi and Chakkarakottai at a cost of Rs. 2,934 crore when Sipcot sets up industrial parks. The funds will come from Asian Development Bank and Nabard. A third-stage water purifying plant would be set up to ensure uninterrupted water supply to the factories in Hosur Sipcot. Water will be sourced from Kelavarpalli dam.

CM announces Data centre park, infra boost for industrial parks

Chennai, Mar 25:
Chief Minister Edappadi Palaniswami announced the creation of an Data Centre Park, spread over 150 acres across Nemili and Mannur villages in Sriperumbudur taluk, at a cost of Rs. 500 crore.

Making announcements under rule 110 the assembly Chief Minister Edappadi Palaniswami said

"The park will be set up by Tidco (Tamil Nadu Industrial Development Corporation). The companies at the park will create 3,500 jobs. "

CM said a Startup and Innovation City would come up in Chennai at a cost of Rs. 350 crore. The objective was to encourage innovation and help knowledge-based

firms by providing the necessary infrastructure and a commercial atmosphere, he said. The Chief Minister said a private industrial park would be created on 116.24 acres at Kallapalayam village in Coimbatore district through Codissia (Coimbatore District Small Industries' Association), at a cost of Rs. 20.96

core. The government's grant for the project is Rs. 10 crore. The lakes in Siruseri Sipcot and Navalur would be desilted and bunds strengthened to create walking and cycling paths for the benefit of IT employees and the general public. The cost of the project is Rs. 50 crore.

Infrastructure will be created at Manallur, Cheyyaru, Manapparai, Theni, Mankudi and Chakkarakottai at a cost of Rs. 2,934 crore when Sipcot sets up industrial parks. The funds will come from Asian Development Bank and Nabard. A third-stage water purifying plant would be set up to ensure uninterrupted water supply to the factories in Hosur Sipcot. Water will be sourced from Kelavarpalli dam.

Jihadists kill 90 Nigerian troops

Nigeria, Mar.25:
At least 70 Nigerian soldiers were killed in an ambush on their convoy by jihadist fighters in the restive northeast, military and security sources said on Tuesday.

Insurgents fired rocket-propelled grenades at a lorry carrying troops as it travelled near Gorgi

village in Borno State on Monday, two military officers said in anonymity.

"It was a huge loss, at least 70 soldiers have perished in the ambush," one of the officers said.

"The terrorists specifically targeted a truck loaded with soldiers with RPGs and incinerated the vehicle, killing all on

board," a second officer said.

"So far 70 bodies have been recovered but the toll is certainly more than that as rescue operation is still underway."

Several soldiers were injured and some others taken captive by the jihadists, the two officers said.

Amma canteen helps

Amma Canteens in Chennai were open to give food to needy sections of the society and to emergency team workers on the job despite the total lockdown

States told not to close food processing units

New Delhi, Mar. 25:
The Centre has asked all states and Union Territories (UTs) not to obstruct or close food processing units, and maintain uninterrupted supply amid lockdown in the country due to coronavirus outbreak.

In a communication to all chief secretaries of states and administrators of all UTs, secretary in the department for promotion of industry and internal trade (DPIIT) Guruprasad Mohapatra has also urged to allow workers and operators at retail outlets, pharmacies, manufacturing units to travel to their units.

"In the wake of precautions being taken by various states for prevention of COVID-19 through lockdowns and various other precautionary measures, it is seen to issue clear instructions from DPIIT to state authorities to not obstruct and call for closure of food processing units, since they manufacture food stuff and to maintain uninterrupted supply for citizens of our country," the letter dated March 23 said.

Govt bans anti-Malarial drug export

New Delhi, Mar.25:
Amid the coronavirus outbreak, the government on Wednesday banned export of anti-malarial drug hydroxychloroquine, with immediate effect to ensure sufficient availability of the medicine in the domestic market.

Indian Council of Medical Research (ICMR) Director-General Balram Bhargava had on Monday recommended the use of hydroxychloroquine for treating healthcare workers handling suspected or confirmed coronavirus cases and also the asymptomatic household contacts of the lab-confirmed cases.

The treatment protocol recommended by the ICMR-constituted National Task Force for COVID-19 has been approved by the Drug Controller General of India (DGCI) for restricted use in

emergency situations.

In a notification issued on Wednesday, the Directorate General of Foreign Trade (DGFT), an arm of the commerce ministry which deals with export and import-related matters, said, "The export of hydroxychloroquine and formulations made from hydroxychloroquine is prohibited with immediate effect". It, however, said the government will allow export of the medicine on humanitarian grounds on a case-to-case basis on the Ministry of External Affairs' recommendation.

Export will also be permitted from the special economic zones/export-oriented units and in cases where the outbound shipment is made to fulfil an export obligation under any advance authorisation license issued on or before the date of this notification, which is March 25, 2020.

It added, "Export will be allowed in case of shipments where the irrevocable letter of credit has been issued before the date of this notification or in the case where full advance payment has been received by the exporter in India against the specific shipment, subject to the submission of documentary evidence."

According to some reports, demand for hydroxychloroquine and chloroquine, a related compound, have jumped after US President Donald Trump said that these salts were effective in treating COVID-19.

People are panic buying this medicine.

Over the last few weeks, India has banned exports of the host of medical devices including sanitisers, all types of ventilators and surgical masks.

Parents want schools to remain closed, seek shorter summer vacation

New Delhi, Mar 25: With the number of coronavirus cases rising in the country, several parents want schools to not reopen soon and have suggested that academic loss if any can be reduced by curtailing the summer vacation.

Several schools, which are already offering classes through digital modes of learning, say a decision in this regard will be taken only after March 31 once a review of the situation is done and also if the lockdown is curtailed. According to a survey by online platform Localcircles.com, 81 per cent parents are in favour of schools being shut through May and reopening on June 1. Over 10,000 parents were interviewed for the survey.

"The way cases are rising, I believe even if the lockdowns are eased, schools should not reopen for at least a month. Kids are very sensitive and their safety should be of utmost concern," Ritvik Ahuja, an architect by profession, told PTL.

Another parent P K Shukla, said, "Schools are already conducting online sessions, assignments are being done online. I am sure with technology at

hand, lot can be managed so there is not going to be much academic loss." Echoing similar concern, Shweta Babber, an IT professional said, "The loss of the number of days in the academic calendar can be made up by not giving any summer vacation this year." Rashi Kuldeep, who is admission counsellor at a private school in Gurgaon, said, "We have not suspended any academic activity, we have just moved it online. Even for admissions that were supposed to happen in the new session, all of that is going on online. But as a parent, I believe the schools should continue to remain closed till the situation is completely under control." The classes and examination have been suspended in all schools till March 31 amid the coronavirus outbreak.

Jawahar Navodaya Vidyalayas (JNVs) across the country have already announced advanced summer break and will reopen on May 22.

The Delhi government has called a meeting on March 26 to discuss measures that can be taken if need arises to keep schools closed after March 31 in view of the

COVID-19 situation.

According to a senior official of the Directorate of Education (DoE), incase schools need to be closed further, we need to have an alternate plan so that academic loss of students can be minimised.

"With the kind of situation around, if need arises, of course this step will be taken. We will review the situation after March 31 and also see if the lockdown is lifted," said Principal of a school in Mayur Vihar, who did not wish to be identified.

Neena Kaul, Principal, Heritage Xperiential Learning School, told PTL, "as an educational institution it is our responsibility to work with all our stakeholders to ensure the safety of our children and staff as well as the continuity of our students' learning. We understand and are sensitive towards the request of the parent community on the change in summer holiday schedule." "We are awaiting necessary directives from the government and will take action accordingly. During the break, we have advised parents, teachers and other staff to avoid making any

travel plans until we have more information on the summer holiday schedule," she added.

A representative of a private school chain with schools in Gurgaon and Noida said, "As of now no decision can be taken unilaterally. The government is assessing the situation and we are following the directives. The CBSE will issue instructions in this regard after March 31. Students safety is of priority for us, for parents as well as the government." Coronavirus cases crossed 500 and one more death from the infection reported taking the toll to 10, as the Centre on Tuesday asked the states and union territories to clamp curfew wherever necessary in the wake of people defying lockdown orders in several parts of the country.

As 32 states and union territories announced complete lockdown till March 31 to deal with the pandemic, authorities are taking a serious view of people continuing to venture out despite the lockdown considering that the coming days and weeks are going to be extremely crucial to contain the spread of the infection.

Saudi reports first coronavirus death

Riyadh, Mar 25: Saudi Arabia has reported its first death from the new coronavirus as the total number of infections spiked to 767, according to the health ministry. An Afghan resident in the western city of Medina died from the virus, the ministry said, while reporting 205 new infections -- the biggest jump in the kingdom in a single day. Saudi Arabia, which has reported the highest number of infections in the Gulf, began implementing a nationwide dusk-to-dawn curfew on Monday to limit the spread of the deadly COVID-19 illness.

The Arab world's biggest economy has also closed down cinemas, malls and restaurants, halted flights and suspended the year-round umrah pilgrimage as it steps up efforts to contain the virus.

into Asia, which rallied for a second straight day. Tokyo went into the break 5.7 per cent higher, Hong Kong, Sydney, Singapore and Wellington all gained more than two per cent. Seoul and Taipei each climbed more than four percent and Manila piled on more than five percent. Shanghai was a little shy of two percent higher. Adding to the more upbeat mood was the G7's promise to do "whatever is necessary".

The unprecedented moves are part of a worldwide response to the rapid financial shock caused by the COVID-19 outbreak, which has locked down countries including the US and brought the global economy to a juddering halt.

Markets surge as US targets blockbuster bill

Hong Kong, Mar. 25: Asian equities soared again Wednesday following a blockbuster day in New York and Europe as US lawmakers edge towards a mammoth stimulus package to support the world's top economy against the impact of the coronavirus pandemic.

While the deadly disease continues to spread, traders have a rare semblance of optimism after weeks of carnage across global markets, with eyes fixed on Washington where lawmakers are thrashing out an emergency bill worth as much as USD 2 trillion - around 10 per cent of US gross domestic product.

"At this point, of the few outstanding issues,

Healthy living

Better Hearing!

The ear is normally a self-cleaning mechanism. Wax acts in a protective manner, catching particles that may land in the ear. Fine hairs inside the ear canal constantly move wax and sloughed skin out of the canal.

Wax and skin can build up inside the ear canal. If the canal is not clean, the eardrum can become completely blocked, greatly reducing hearing and eventually cause permanent damage.

If you have itching inside your ear

canal, use an eye dropper to place a few drops of baby oil in your canal once or twice a week to lubricate.

Common symptoms associated with hearing impairment are ringing sounds in the ears, a feeling of pressure in the ears, and dizziness.

Your doctor or hearing specialist should remove your excess wax. Do not try and remove ear wax with cotton swabs, hair pins, or other hard objects. You can damage your ear canal or eardrum.

Inspiring thought

The best way to cheer yourself up is to try to cheer somebody else up."

- Mark Twain

Divine Digest

Freedom I

All beings are struggling for freedom in one form or another. Bondage or restriction is misery. Freedom or self-sufficiency is happiness. Freedom from hunger and thirst is a motive power common to all beings. Nature has placed this limitation on them. They are trying to extricate themselves. Ignorance is a bondage. They search for that knowledge which frees them.

When I am self-constrained and self-sufficient there is nothing in the universe to interfere with my freedom.

-Buddha

Olympics postponement to cost Japan \$12.6 bn

Tokyo, Mar 25: The historic decision to postpone this year's Olympic Games over the coronavirus pandemic is likely to pile on the pain for Japan's economy, already expected to be roiled by the global virus outbreak, economists say.

What has the Games cost Japan? At the end of 2019, organisers estimated the total cost of the Games at around 1.35 trillion yen (\$12.6 bil-

Flipkart suspends operations

New Delhi, Mar. 25: Walmart-owned Flipkart on Wednesday said it was suspending its operations temporarily as India entered into a 21-day lockdown to contain the spread of Covid-19 pandemic. Industry experts also flagged challenges around movement of delivery personnel and staff, as well as interstate movement of goods amid lockdown across the country.

Some e-commerce players are also urging the government to expand the scope of essential products beyond food items and medicines to include other products, like cable and routers that may be required for customers who are working from home.

Banks waives minimum balance charges, no fee for withdrawal from ATM

New Delhi, Mar 25: Giving relief to citizens amid the coronavirus outbreak, the government on Tuesday removed charges on withdrawal of funds from other bank ATMs and also

exempted account holders from maintaining minimum balance.

Announcing the initiatives, Finance Minister Nirmala Sitharaman said these concessions will continue

for three months till June 30.

All banks, including private sector ones, will waive off minimum balance and ATM fees for the next three months.

"At the moment, these

relaxations are for three months. As we go along, we will consider the situation and take decision accordingly," she said.

She also announced reduced bank charges for digital trade transactions for all trade finance consumers to promote digital payment. With regard to the commerce ministry, the finance minister said extension of timelines for various compliance and procedures will be given.

Besides, she said all sanitary import permits (SIPs) for SPF Shrimp Broodstock and other agriculture inputs expiring between March 1 and April 14 has been extended by 3 months. She said the delay up to 1 month in arrival of consignments will be condoned. Rebooking of quarantine cubicles for cancelled consignments in Aquatic Quarantine Facility (AQF), Chennai, will be without additional booking charges, she said adding that the verification of documents and grant of NOC for quarantine would be relaxed from 7 days to 3 days.

I am sure it will be very difficult." Which sectors would be affected?

According to analysts at Capital Economics, one key factor to consider in terms of how a postponement might hit Japan's economy is that most of the spending has already happened.

That means the effects of outlays, most notably on construction of new sporting venues, has already been factored into GDP in recent years.

But a postponement could drag down tourism as well as general consumption in the country, already under pressure after a controversial sales tax hike last year.

Quake, tsunami alert in Pacific

Moscow, Mar. 25: A 7.5 magnitude earthquake struck in the northern Pacific on Wednesday and a tsunami warning was issued for the closest shores on Russia's far eastern Kuril Islands. A tsunami watch was in place for Hawaii.

The US Geological Survey said the quake struck 219 kilometers south-southeast of Severo on the Kuril chain far north of Japan. It was 56 kilometers (37 miles) deep.

The Pacific Tsunami Warning Center said hazardous tsunami waves were possible within 1,000 kilometers (600

miles) of the quake's epicenter. It said earthquakes of this strength in the past have caused tsunamis far from the epicenter. A tsunami watch was issued for Hawaii but the center said it was still investigating if there was a threat to the islands.

The US National Tsunami Warning Center also still was analysing the event to determine the level of danger for Alaska and the US West Coast.

The Japan Meteorological Agency said the quake was a stronger 7.8 magnitude and may cause a slight change of sea levels around Japanese coasts.

Thuraiyur residents seek action against encroachments

Thuraiyur, Mar 25: Residents of the Thuraiyur Ward 14 in a memorandum submitted to the Thuraiyur Municipality have requested to take immediate action against the hundreds of shops that were encroached on platforms of Nallavandu Lane and Madhava Rao lane, causing disturbance for the smooth flow of traffic as well creating difficulty to pedestrians to walk freely.

The residents in the memorandum submitted to the Municipality, have stated that in the ward No 14 more than five hundred families are living, who for their duties and other work could not use the platforms, as they are encroached by some unauthorised by pavement vendors, selling vegetables.

The residents also stated that a vegetable market with around 45 permitted shops were functioning and are paying rent to the Municipal. The other 50 shops were run on contract basis, but the other 100 unpermitted shops are encroaching the platforms, causing

disturbance for the pedestrians and also to ride bicycles and other two wheelers in these two lanes.

In late evenings, the unsold vegetables which become rotten are thrown publicly and never deposit them in waste baskets, due to which the people who ride vehicles on these roads are badly hit, the memorandum further added.

The residents also stated that several unauthorised

shops selling fish and meat, after the market hours, have been throwing out the wastage publicly, due to which the residents are witnessing the stray dogs fights on streets, thus creating nuisance to public.

The residents experience more difficulty during festivities, as more number of shops come into occupying the place along with the unauthorised shops.

The residents have

also pointed out that the Thuraiyur Vegetable Merchants Association, on several occasions, had requested the Municipality to take action, but had fallen on deaf years, said the Memorandum.

Unless, the stringent action is taken, there will be no end to the problems that are created by the unauthorised vegetable merchants, said the memorandum.

Palani Muncipal administration quarantines 28 families

Palani, Mar 25: The Palani Municipal Administration has taken steps to quarantine all members of the 28 families, after some members of the families returned home from foreign countries.

Quarantine does not come in a way for the families who have been touring within the country, and of late, with the spread of coronavirus throughout the country, which was transmitted from other countries through various visitors to India. The Government by keeping in view of the bad situation that the people in the

country, has been asking the foreign returnees to isolate themselves and their family members to prevent themselves from the viral attack.

The Municipal administration has taken serious steps against a 29-year-old-woman and her three-year child who returned to Palani Goundenkulam village after making a short visit to Dubai. The woman and her child straight went to her parents house consisting of a total of 5 members. The Municipal Health Officials who came to know about the woman and the child staying

along with her family members, conducted medical tests and asked them all to quarantine themselves for at least 23 days, as they feared that all the family members were contacted with the virus attack.

The officials also warned all the family

members not to move away from homes, i.e., trespass from the isolated area. Since, March 1, the Municipal administration has isolated members of 28 various families, after it came to know that several persons have travelled to India from other countries.

The gates at the entrances of the Tiruchi Railway station were closed down, after the Railway Department announced that all the trains will be cancelled. People, who on Sunday night expecting waiting at the railway station, waiting for their trains, after coming to know that all the trains were cancelled, left from the station during late night, sources said. The doors of the ticket counters and other shops, including the vegetarian restaurants were closed.

6 gamblers arrested

Palani, Mar 25: Palani Taluk Police officials who on patrol duty arrested six persons for gambling and recovered from them Rs 750. The incident took place near the Pondhupuli area, said the police after arresting all the six.

According to the police sources, Kanmani (25), Sadhasivam (25), Karuppusamy (41), all belonging to Kavalapatti, Velayudham Palayam Ramasamy (25) and Ganesan (26) and Pondhupuli village Karuppusamy (24) were all arrested by the patrol police team.

President of the Madurai District Cooperative Super Market Raja distributed masks freely to the workers of the market to guard themselves against contacting coronavirus. Managing Director Rajaguru and Trade Union President Rajendran were present.

Tirunelveli District Collector Shilpa Prabakar Satish conducted inspection at the disinfection work carried out by the Tirunelveli Corporation employees, as well by some private agencies in the Tirunelveli District Government Medical College Hospital recently. Sub-Collector Manish Naravanarey, Principal of the Medical College Hospital Dr Ravichandran, Corporation Commissioner Kannan, Town Welfare Officer for Tirunelveli Metro Dr Satish Kumar and various other officials were present at the cleaning work.

Collector thanks people, for strictly following Sec.144 code of conduct

Pudukottai, Mar 25: District Collector P.Uma Maheswari who was inspecting the spraying of the disinfectants on roads carried out by the district Self-Help Women group, thanked all the residents of the district for sincerely obeying the orders of the TN Government to impose themselves the Sec.144 for distancing themselves from contacting the Coronavirus.

In an informal chat with newsmen Collector P.Uma Maheswari said that in the district all precautionary steps have been taken to prevent the spread of the virus. She said that the disinfectants were getting sprayed at all public places like bus-terminus and railway stations and also market area, where people would always gather in large numbers.

The Collector allied the fears over the virus, said that the spraying work has been carried out on all nook and corners of every village in the district. She also said that the government has been taking steps to create awareness about the people's role in preventing the coronavirus.

The Collector also said that in the Pudukottai Poomalai Commercial Complex, several self-help groups have been carrying out the manufacture of disinfectants and masks

to be freely distributed to the people to contain the spread of virus.

The Collector also said that she recently visited the commercial complex, and the women self-help group members from Pudukottai, Keeranur, Viralimalai and also from adjoining area have been producing them. She said that the SHGs produce a minimum of 50,000 masks per week. She also asked the people not to move out of homes, unless for important work.

During the inspection the Municipal

Commissioner Jeeva Lalitha and various other officials accompanied the of Women Planning Collector.

Home quarantine violators will be taken to corporation hospitals

Take measures for social distancing, welfare Associations told

Chennai, Mar 25: The residents on home quarantine have come out of their homes before the stipulated time, the persons will be taken to government quarantine facilities, Corporation Commissioner Prakash said.

Chennai Corporation officials and the police will gather information from neighbours about home quarantined persons stepping out of homes. Residents welfare associations have been advised to take necessary measures for social distancing, officials said today.

Once the Corporation officials find that the residents on home quarantine have come out of their homes before the stipulated time, the persons will be taken to government quarantine facilities. In case people have information about such people wandering during the quarantine period, they can call the Corporation Control Room at 044-25384520, and inform the officials.

The Chennai Corporation has readied 400 beds

in hospitals such as Communicable Diseases Hospital in Tondiarpet, secondary care facilities in Injambakkam, Tiruvottiyur and Manali.

Chennai Corporation Commissioner G.Prakash said "one infected person can spread the infection to one lakh persons. Zonal officers and health officers, be ruthless in your approach. If you are soft, you are violating your professional ethics. Being ruthless and strict is the only option. We will have to teach those who violate norms a lesson. Otherwise they will spread the disease. Be strict in quarantine follow up. When you shut down an establishment, officials should not have any ulterior motive."

It has also started shutting down IT companies that fail to adhere to "social distancing norms" to contain the spread of COVID-19. According to the government order for COVID-19 infection prevention and control, exempted industries have been permitted to operate at 50% of the strength on rotation basis.

Persons have to maintain a distance of one metre, as part of the social distancing to prevent the spread of COVID-19.

Prakash said all the 4,196 residents in the city on home quarantine have to be advised to remain indoors. The civic officials are also exploring options of geo tagging such persons on home quarantine.

Responding to civic officials who pointed to instances of residents in high income neighbourhoods violating home quarantine, Deputy Commissioner (Health) Madhusudan Reddy said, "The police will accompany the Corporation workers to homes where residents have been quarantined. Those who violate home quarantine norms will be brought to government quarantine homes, which will be a hospital or a hostel or a school. We can send the message very strongly to the people that these officials of Corporation will go to any extent to lock you down under the existing rules," Mr.Reddy added.

On Tuesday, Chennai Corporation shut down an IT company in south Chennai after officials found that the risk of spread of COVID-19 was high because the company permitted crowding of employees on its premises. The employees were allowed to work, sitting in close proximity. Chennai Corporation officials who analysed the data of the company found that the employees were frequent travellers who increase the risk of spread of COVID-19.

Six hours after the premises was sealed by the Chennai Corporation, the IT management agreed to adhere to social distancing norms, following which Chennai Corporation officials desealed the premises.

Chennai Corporation on Tuesday shut down most of its office buildings, asking residents to communicate through social media such as Twitter and Facebook. However, Ripon Buildings will remain open 24X7 to facilitate COVID-19 prevention.

Ready Microbiology joins efforts to fight Covid-19 virus

Chennai based Ready microbiology system (RMS) has come forward to extend its helping hands to the Central and State Governments which are fighting against the Covid-19 virus, for the production of viral transport media through its consultants who are clinical microbiologists with product manufacturing experience in India, USA and Middle east countries and has experience handling prestigious Gulf Cooperation Council (GCC) tenders for microbiology products in Saudi Arabia.

Director of the RMS, Dr.K.Khaleel told Trinity Mirror that since the early diagnosis leads to better prognosis, it is urgent need for increasing the testing centres for accurate diagnosis of infectious diseases ,proper specimen collection and transport is mandatory. As far as respiratory viral infection is concerned there is a shortage of supply of transport media which is widely used successfully for Rapid Antigen testing, Direct Fluorescent Antigen / Antibody (DFA) and formolecular based assays, he added.

Referring to the guidelines of the Centers for Disease Control and Prevention (CDC) for Collecting, handling, and testing clinical specimens from patients under Investigation for Covid-19, Dr.Khaleel said for upper respiratory specimens, the CDC is recommending nasopharyngeal washes/aspirates, nasal aspirates or to collect both an anopharyngeal swab and an oropharyngeal swab made of synthetic fiber with plastic applicators. Once the specimens are collected, it is recommended that the swabs are placed in 3 ml of viral transport media. Other specimens are collected and transported according to international guidelines, he emphasised.

Dr.Khaleel

Industrial growth adversely affected by COVID-19: OPS

Announces Marina Commercial Town at Foreshore Estate

Chennai, Mar 25: Industrial growth has been adversely affected by the temporary closure of industrial units and commercial establishments following the outbreak of COVID-19, Deputy Chief Minister and Finance Minister O. Panneerselvam informed the Assembly on Tuesday.

Addressing the Assembly during the debate on the demands for grants to the Finance Department, Panneerselvam said major industrial hubs like Chennai, Coimbatore, Erode, Tiruppur, Salem, Madurai and Thoothukudi, among others, had been affected.

Exports in the manufacturing sector, including those of textile and knitwear products and machinery, had been hit, he said, pointing out that both exports and imports of goods had been affected due to the suspension of cargo movement to and from

foreign countries. "Vehicular transport too has largely reduced," Mr. Panneerselvam said.

"Due to these reasons, there has been a slump in the economy. No one could predict the economic loss resulting from the spread of a pandemic like COVID-19," he said.

"The State government has a duty to implement people's welfare schemes and make capital expenditure, despite the unusual circumstances. Funds for taking precautionary measures against the pandemic would be allocated from the State Disaster Response Fund," Mr. Panneerselvam said.

The State government would take steps to overcome the dip in industrial growth and ensure growth by implementing all the schemes of various departments. IGST dues of about Rs. 7,517 crore were yet to be settled by the Centre, he said. Though the 15th Finance Commission had recommended a marginal increase

in the funds allocated to Tamil Nadu, he said, "There are several problems facing the State, which require solutions. The Tamil Nadu government would present a revised note to the 15th Finance Commission."

Around 500 tourists and students from Tamil Nadu, who were stranded abroad due to the COVID-19 outbreak, had been brought back to the State, Panneerselvam said.

Marina Commercial Town

He said Tamil Nadu Housing Board had retrieved 153.69 acres of lands worth Rs 854.12 crore which were encroached in various districts. He also informed the House that steps were being taken to establish Marina Commercial Town at Foreshore Estate in 25.16 acres. This town will have a mega commercial complex and restaurants, and this would be a landmark for Chennai metropolitan city.

Crime rate down, Law and order under control : CM

Chennai, Mar 25: The law and order situation is under control in Tamil Nadu and it is better than it was under the erstwhile DMK regime, Chief Minister Edappadi K. Palaniswami said in the Assembly on Tuesday.

In his reply during the debate on the demands for grants to the Police Department, Mr. Palaniswami said murder-for-gain cases at the end of 2010 was 1,368, but there were only 1,745 such cases during 2019-end.

"This means it rose by

5.9% every year during the DMK regime and has reduced by 0.7% over the past 9 years," the Chief Minister said.

Palaniswami also pointed out that the fund allocation for the Police Department was only Rs. 2,962 crore during 2010 under the erstwhile DMK regime, but had risen to Rs. 8,826 crore during the 2020-21 period.

Referring to the proposed recruitment of over 2,500 police personnel, the CM said once they are recruited, the vacancies in the Police Department would be a mere 2%, as

against 19.5% when the AIADMK came to power in 2011.

"Police personnel have been taking appropriate safety and security arrangements over protests

in various places against the Centre's Citizenship (Amendment) Act to ensure religious harmony and avoid disturbance to the general public," Palaniswami said.

Coimbatore Bus Stand looks deserted as people fully stand by Chief Minister Edappadi Palaniswami's appeal for total lock down.

Poompuhar MLA S.Pawnraj, Seerkali MLA P.V. Sarathy, Mayiladuthurai MLA V.Radhakrishnan called on Chief Minister Edappadi Palaniswami at his camp office and thanked him for creating the Mayiladuthurai district by bifurcating Nagapattinam district.

Chief Minister Edappadi Palaniswami called on Speaker P.Dhanapal before tabling the demand for grant for the department of Police, Fire rescue for discussion in the Assembly.

Police vigilance is on place to curtail movement even in late hours in Coimbatore.

Madurai College Higher Secondary School along with Pondi Bazaar Merchants Association is creating awareness on importance of social distancing for prevention of the spread and explained about the importance of State government's measures to prevent the spread of coronavirus.

Revenue and Disaster Management minister R B Udaya Kumar reviewed the implementation of various efforts initiated by chief minister Edappadi Palaniswami in all 37 districts in Tamil Nadu. Adltn chief secretary Atula Mishra, Revenue Administration commissioner J Radhakrishnan, Land Administration Commissioner Bansal and Disaster Management director T Jaganathann were present at this meet.

Assembly adjourned sine die

Chennai, Mar 25: The Assembly on Tuesday granted demands for 27 departments besides passing a bill which provides for a vital change in ensuring 20 per cent reservation in direct recruitment for candidates who have studied in Tamil medium.

Film director dead

Chennai, Mar 25: Deputy director of cinema 26-year-old old Vinodh Kambili died yesterday evening when his motorcycle hit the traffic median on the outer ring road in Ulundurpet in Kallakurichi district day

before yesterday night. Police on information rushed to the spot and sent the body for post mortem to the hospital. He had been assisted the director for several small films

Electricity Minister P.Thangamani met Chief Minister Edappadi Palaniswami and sought his wishes before tabling the demand for grant for the department of Electricity for discussion in the Assembly.
